

CPRE East website March 2008

Cut your Carbon

Cut your Carbon is an exciting regional initiative, led by the East of England Development Agency (EEDA), with the goal of helping communities respond to climate change by reducing their carbon emissions.

Groups taking part will be able to:

- measure their carbon footprint online
- take action to become more energy efficient
- seek up to £200,000 for carbon cutting projects in the £2.5 million funding competition

EEDA is looking for people in the East of England who have the passion and drive to encourage others to join them in tackling climate change. If that sounds like you, there is lots of practical support available to help you and your community become low carbon heroes!

Visit the website for more information www.cutyourcarbon.org.uk.
