

Hadleigh, Hill Farm, Pond Hall Road

The Society objected to the planning application for a proposed caravan park, accommodating up to 50 touring caravans, requiring a change-of-use of agricultural land and erection of ancillary buildings at Hill Farm. This open, elevated site is adjacent to the special landscape area and prominent in the landscape. The proposed development would be prejudicial to the interests of highway safety, would result in harm to the landscape quality and rural amenities of this attractive area and would also result in harm to the wider setting of Pond Hall, a significant listed building.
