

"CLIMATE CHANGE - WHAT CAN YOU DO?"

A One-Day Conference

"CLIMATE CHANGE - WHAT CAN YOU do?"

Climate Change is happening!

The problem appears to be at Government and at a personal level, we appear unsure of our response and what we should do.

The one thing that is agreed upon is that if we do not do something now, future generations will inherit a very different planet.

The Conference aims firstly to clearly identify what is happening and what changes we can expect in the future. It will then examine the impact of those changes on different aspects of our environment. Finally, the aim will be to set out measures that we might be able to adopt to help lessen the impact for Climate Change.

The One Day Conference should be of interest to Members, those concerned with our environment and those wanting practical advice on how to respond to Climate Change.

PROGRAMME:

- from 9.30 Registration & Coffee

Membership rate)

(Price includes coffee and lunch. Please state any
special dietary requirements)

HOW TO FIND US:

*Haughley Park Barn, Haughley,
Stowmarket, Suffolk IP14 3JY*

The Society works to protect and enhance the countryside, towns and villages of Suffolk. Its volunteers in the Districts, with a Chartered Planner at Little Hall in Lavenham, combine effective local action through the planning system with the promotion of building conservation projects, encouragement for sustainable planning, and campaigns and awards which support this ethos.

Help us to protect the rich diversity of the County – its countryside and coastline beauty; its tranquil places; its rich complexity of buildings and architecture; its historic market towns, country villages and farm hamlets – its special character.

If you are not already a Member consider joining us today and become part of the campaign to protect Suffolk and ensure changes value its natural and built heritage and promote sustainable planning for a better future.
